**Title:** Mextra Superabsorbent/Superabsorbant

<b>Generic product information</b>	
<b>Intended Purpose:</b>	Mextra Superabsorbent is intended for use on moderately to heavily exuding wounds. Mextra Superabsorbent is a superabsorbent dressing with a fluid-repellent nonwoven backing, a core consisting of superabsorbent particles and a nonwoven wound contact layer. Mextra Superabsorbent absorbs wound exudate through the wound contact layer, retains the exudate within the core and reduce the risk for maceration. The fluid-repellent nonwoven backing acts as a barrier and prevents exudate strike-through.
